

PLAY EQUIPMENT ON MARDEN FIELD

In the interests of public safety and following government advice Rimpleton Parish Council regrets that it will **not** be opening the playground on 4th July. Official guidance indicates that playgrounds should only be opened when they can be operated safely and requires the frequent cleaning and disinfecting of surfaces which are touched frequently, like handrails, bars and gates. Unfortunately, we do not have the resources to operate such a regime.

The Council will be keeping the situation under review as government guidance and policy evolves, and the playground will be re-opened as soon as this can be done safely.
